### Combined Raw Score (out of 132)

Based on 229 students with both MC and FR graded. Raw score =  $4 \times \text{MC} + \text{FR}$ .

| Statistic                  | Points | %     |
|----------------------------|--------|-------|
| N                          | 229    |       |
| Mean                       | 101.2  | 76.6  |
| Std dev                    | 17.2   | 13.0  |
| Minimum                    | 36.0   | 27.3  |
| 10th percentile            | 77.6   | 58.8  |
| 25th percentile            | 91.5   | 69.3  |
| Median                     | 104.0  | 78.8  |
| 75th percentile            | 116.0  | 87.9  |
| 90th percentile            | 120.0  | 90.9  |
| Maximum                    | 132.0  | 100.0 |
| Perfect scores (= 132 pts) | 1      |       |

## Curve

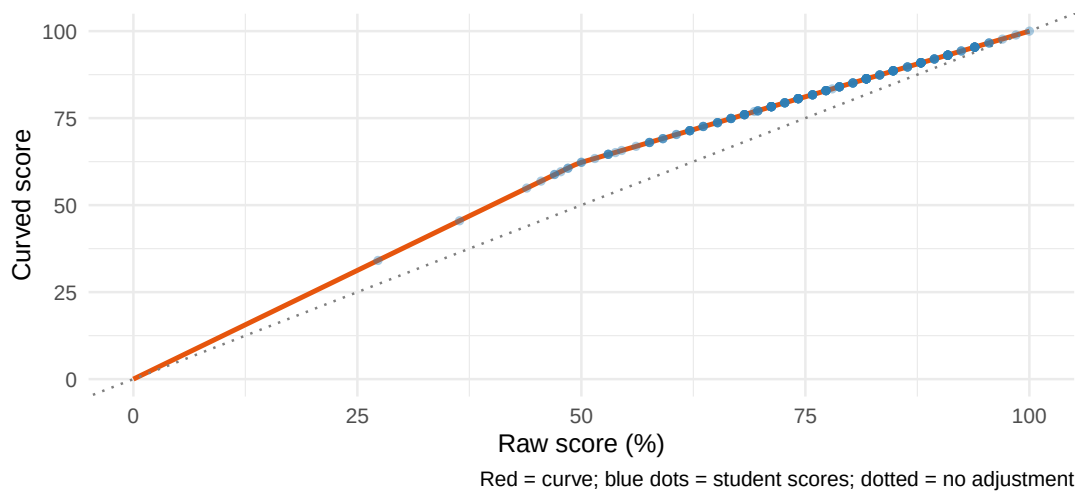

Scores are curved using an affine transformation anchored at two points: the observed median raw score maps to **84** and the observed maximum maps to **100**.

$$B = \frac{100 - 84}{132 - 104} = 0.5714$$

$$A = 84 - 0.5714 \times 104 = 24.5714$$

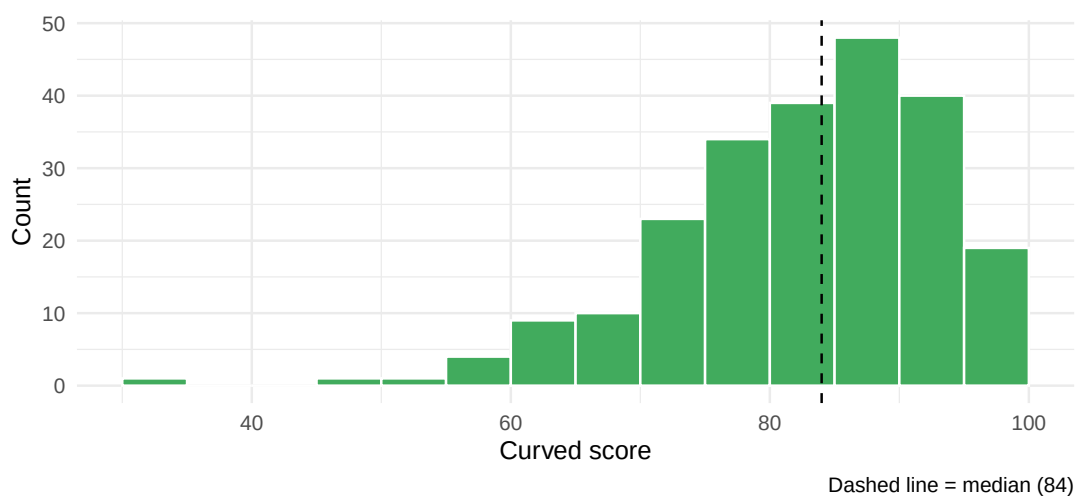

$$\text{Curved score} = 24.57 + 0.5714 \times \text{raw score}$$

**Cap rule:** curved score  $\leq \min(\text{raw}\% + 0.25 \times \text{raw}\%, 100)$ .

## Curved Scores (out of 100)

## Flags and Action Items

- **9 student(s) not yet fully graded** — re-run pipeline once FR grading is complete.
- **\*\* Recalibrate TARGET\_MEDIAN in 03\_combine\_and\_curve.R once all FR scores are in.\*\***
